

# DESIGN WEEK

WE INVITE YOU TO JOIN DESIGN WEEK AS A PRESENTER, HOST, OR SUBJECT MATTER EXPERT.

We seek partners to build Design Week by engaging with the general public and sharing knowledge with local design professionals and interdisciplinary audiences through the lens of design.

- Programs could include:
- Host a Learning Lab or Skill Build session
  - Host a Studio or Project Tour
  - Highlight a prototype, product or service release
  - Moderate a conversation with presentations, panels or roundtables
  - Share a craft through workshops and hands-on experiences

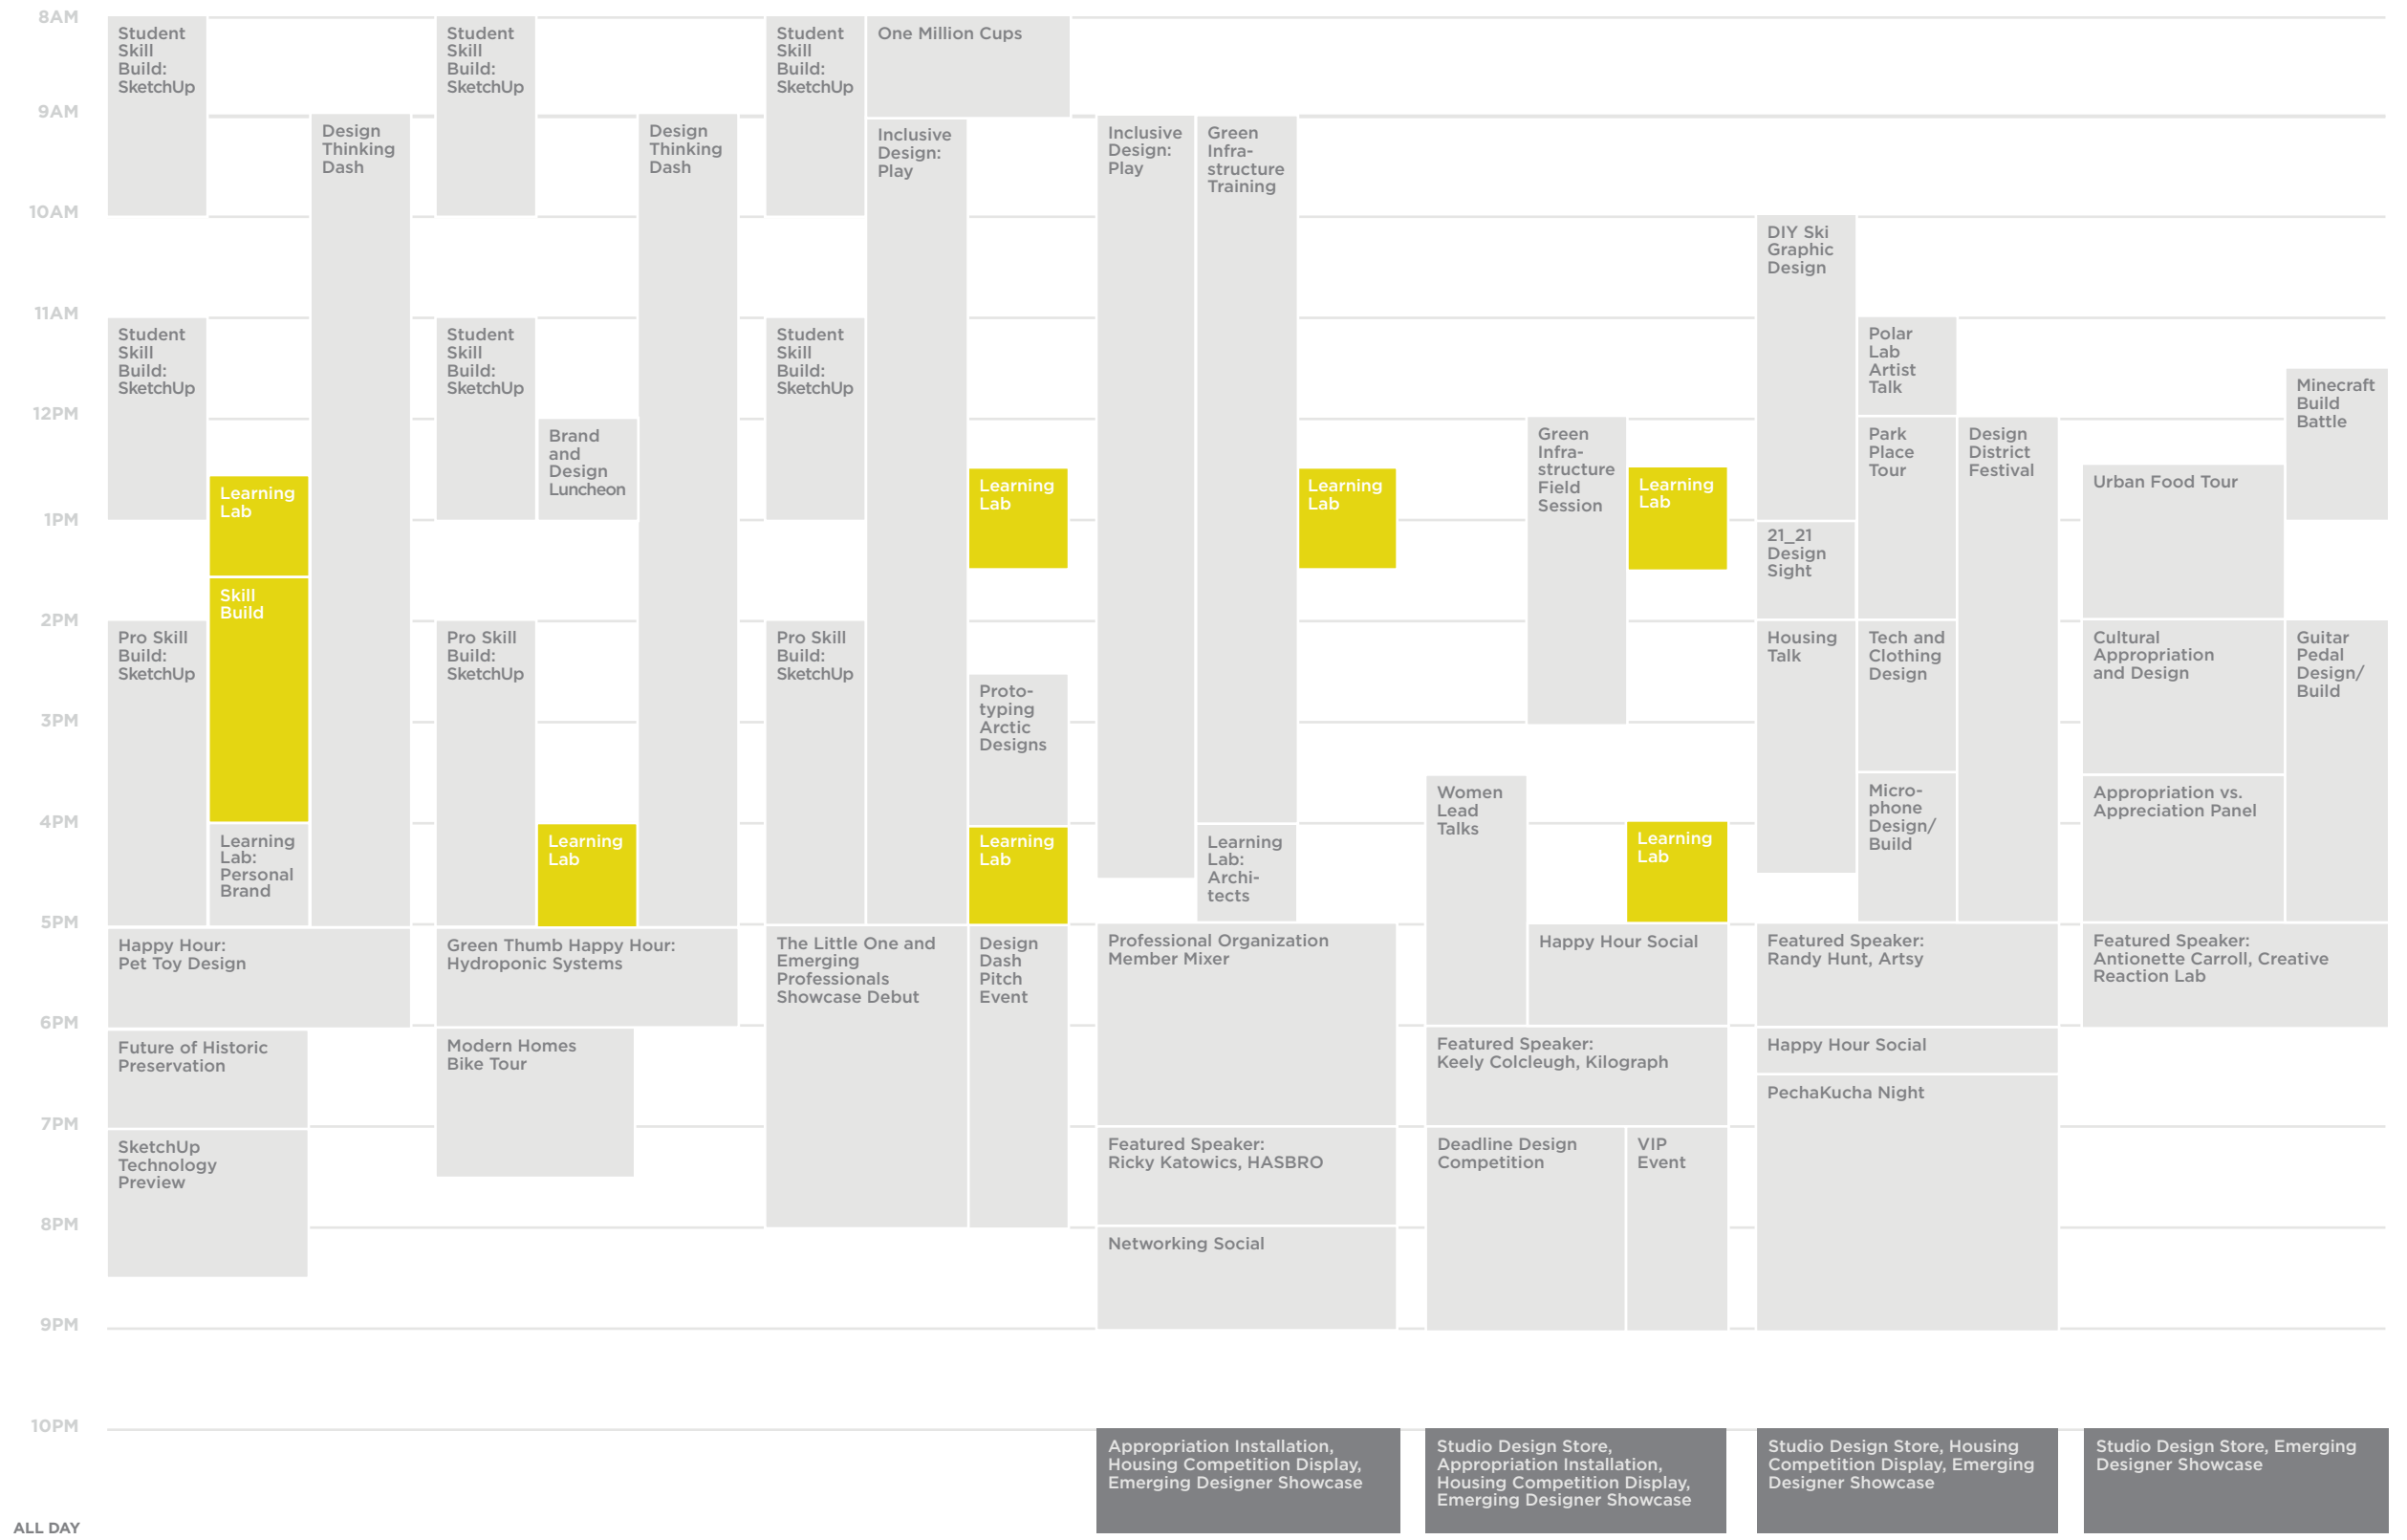

The calendar at right outlines opportunities to host a program. You are encouraged to **propose an event at the link below by August 3**. Be sure to include as much information as possible. Design Week organizers will follow up and help share your event or expertise.

**LEGEND**

- Available programming
- Scheduled programming
- All day programming
