ADMINISTRATIVE INFORMATION

Acquisition and Appraisal Information
The collection was transferred to the Anchorage Museum from the Tochak Historical Society. THS had received the collection in from the Mespelt and Almasy Trust. It is possible that Margaret Mespelt came into possession of the collection during her tenure with the FAA in McGrath.

Processing Notes
Nine glass lantern slides were damaged in shipping to the Museum and were discarded. Several negatives and 4 prints were discarded due to condition. Many of the negatives and transparencies were contained in original boxes or envelopes; however, it became clear during processing that the contents of the containers did not match the labels. Container labeling is reproduced here with image numbers of items found therein for future research use:
