TITLE: George E. Allen Collection

COLLECTION NUMBER: B1995.010

OVERVIEW OF THE COLLECTION

Dates: circa 1940-1981

Extent: 12 boxes; 10 linear feet

Language and Scripts: The collection is in English.

Name of creator(s): George E. Allen, Clarissa P. Allen, Robert A. Hall, Steve McCutcheon, Phyllis McCutcheon, Robert Matsen, Cliff Collins, Sidney Hamilton, Howard Robinson

Administrative/Biographical History:
As related by his cousin, and from an obituary published in the Anchorage Daily News, George E. Allen was a landscape architect who came to Alaska aboard the S.S. Yukon in 1941 on a contract with the Civil Aeronautics Administration. He later continued employment in Alaska with the FAA until retirement. During the FAA years, he served as a building inspector for major housing projects at Kotzebue and Annette Island. Mr. Allen was very interested in photography. In 1956, Allen and his wife, Clarissa Peters, accompanied Alaska Territorial legislator and professional photographer, Steve McCutcheon and his wife on a canoe trip down the Yukon River. Several trays of slides of this trip are included in this collection.

Scope and Content Description:
The collection consists of 5596 color transparencies; 396 black-and-white prints and 18 color prints; 225 black-and-white negatives; 59 reels of moving image film; and 7 audio reels
created or collected by George and Clarissa Allen. In addition, there are 11 handwritten letters between Allen family members as well as documents and ephemera relating to general photography.

Most images depict various Alaska locations and scenery. A large number of slides show the Alaska Railroad in the 1940s (.1-340). Other large groups depict the Anchorage/Matanuska area; trips and scenes along the Alaska road system; travels along various sections of the Alaska Highway; several separate water trips aboard various ferries and, later, of the Alaska Marine Highway system; and a number of subjects dealing with various Alaska villages, both along the Yukon River and elsewhere, including Anaktuvuk Pass, Ketchikan, Kodiak, Kotzebue, McGrath, Metlakatla, Nome, Seldovia, Shaktoolik, St. Paul, and other villages in both the Arctic and Southeast Alaska.

For more information, see Detailed Description of Collection.

Arrangement: Arranged by format. All slides have been re-organized generally in date order, with extra dividers indicating location or subject matter. Subject matter organization in the first boxes in some cases includes a mixture of dates from the mid-1940s through the mid to late 1950s (e.g., ‘Matanuska Glacier’ contains similar pictures of the glacier for a 12-year period from 1945 through 1957). Beginning in early 1958, slides developed by Kodak began including date of development on the slide mounts. The remaining slides containing date-mount stamps have been organized mostly by these dates, with a few exceptions to include subject matter organization similar to the above example. In addition, slides taken during the Allen/McCutcheon Yukon River canoe trip are organized by location, as best as possible, to follow the trip from the Canadian border down the Yukon River to the sea.

CONDITIONS GOVERNING ACCESS AND USE

Restrictions on Access: The collection is open for research use.

Physical Access: Original items in good condition.

Technical Access: No special equipment is needed to access the materials. A light box may be used to view transparencies.

Conditions Governing Reproduction and Use:
The Anchorage Museum is the owner of the materials and makes available reproductions for research, publication, and other uses. Written permission must be obtained from the Anchorage Museum before any reproduction use. The Anchorage Museum does not necessarily hold copyright to all of the materials in the collections. In some cases, permission for use may require seeking additional authorization from the copyright owners.

ADMINISTRATIVE INFORMATION

Acquisition and Appraisal Information
Donated by cousins Robert and Virginia Bursiel in May 1995.

Processing Note
Slides depicting trips and other interests from outside of Alaska or the United States have been deaccessioned. In addition, photographs of family and relations at homes in Alaska and elsewhere were deaccessioned, although a representative sample was kept to identify the photographer, his wife, and some of his family in the field with him on Alaska outings.

Negatives digitized and moved to freezer in 2017.

Separated Materials
Motion picture film removed to separate shelving.

Confusion in original can numbering resulted in two cans for each of the accession numbers B1995.010.reel2-reel5 and no cans for accession numbers B1995.010.reel16-reel20.
Assumptions on can size and film length led to reassignment of four original cans to B1995.010.reel16-reel20, but within those four reels order may not have been retained.
