# MAKING A PAPER QUILLED CARD

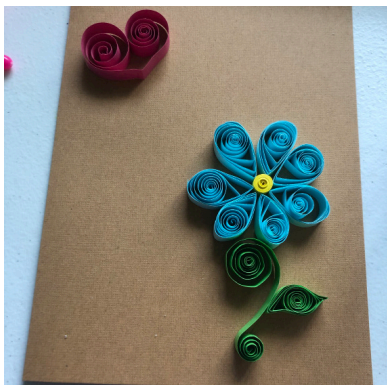

Before starting, decide on a design. Consult the template page for design ideas or create your own.

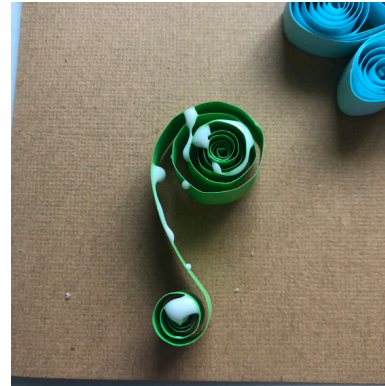

**1.**  
Fold a piece of  
cardstock in half

**2.**  
Create the paper quilled  
shapes you need for your  
design.

**3.**  
Lay out your design  
how you want it to  
look.

**4.**  
Put glue on the back  
side of your quilled  
shapes.

**5.**  
Gently press the paper  
quilled shapes in place  
and hold until they  
dry a bit. Tweezers are  
sometimes helpful for  
this step.

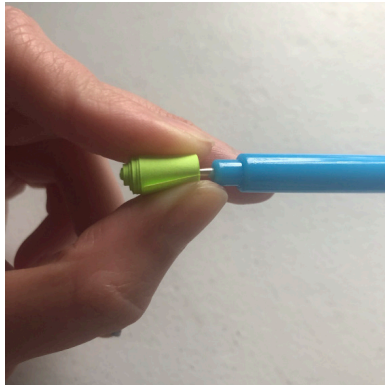

**6.**  
Add any writing or  
additional elements to  
your design. Give it to  
a friend or loved one.

# PAPER COIL

**1.** Slide your strip of paper into the notch on the quilling tool. If using a toothpick, simply wrap tightly around the toothpick.

**2.** Tightly wrap the entire paper strip around the quilling tool.

**3.** Remove the paper from the quilling tool. Set on the table and allow it to grow to the desired size.

**4.** Put a dot of glue on the outer end of the paper and glue it down

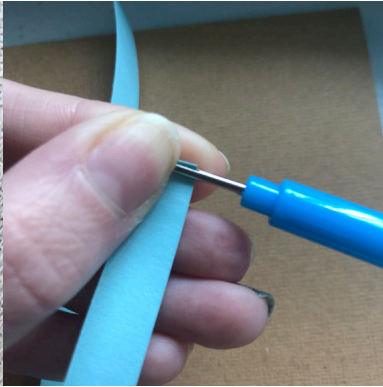

**5.** Pinch one side of the paper spiral.

**6.** Coils can be loose or tight or pinched into many other shapes, as demonstrated on the next few pages.

# TEARDROP SHAPE

**1.**  
Slide your strip of paper into the notch on the quilling tool. If using a toothpick, simply wrap tightly around the toothpick.

**2.**  
Tightly wrap the entire paper strip around the quilling tool.

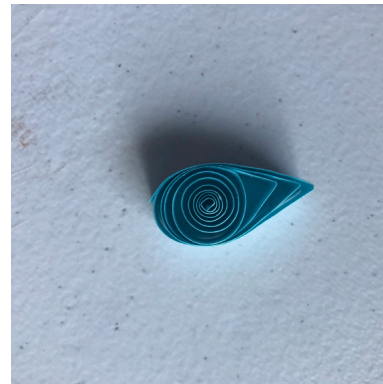

**3.**  
Remove the paper from the quilling tool. Set on the table and allow it to grow to the desired size.

**4.**  
Put a dot of glue on the outer end of the paper and glue it down

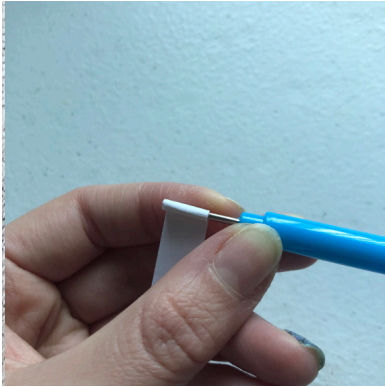

**5.**  
Pinch one side of the paper spiral.

**6.**  
Your finished teardrop shape should look something like this.

# EYE SHAPE

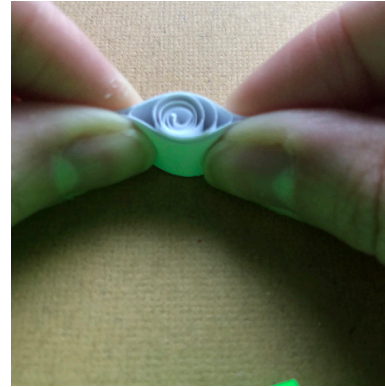

**1.**  
Slide your strip of paper into the notch on the quilling tool. Tightly wrap the paper strip around the quilling tool.

**2.**  
Remove the paper from the quilling tool. Set it on the table and allow it to grow to the desired size.

**3.**  
Put a dot of glue on the outer end of the paper and glue it down.

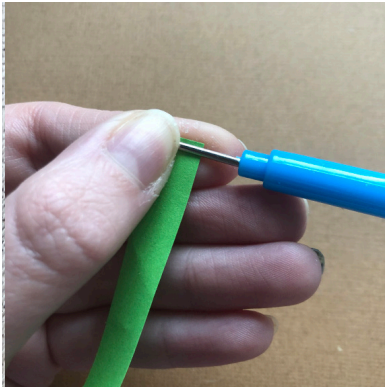

**4.**  
Pinch both sides of the paper spiral.

**5.**  
Your finished eye shape should look something like this.

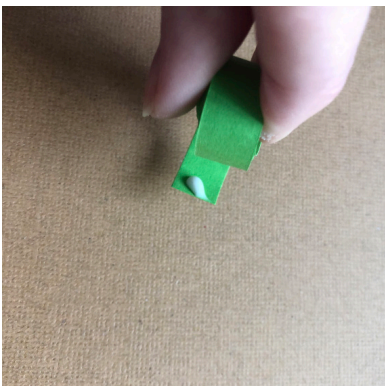

# LEAF SHAPE

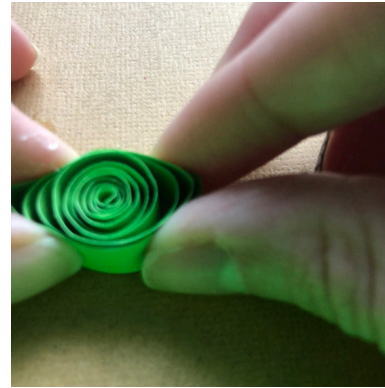

**1.**  
Slide your strip of paper into the notch on the quilling tool. Tightly wrap the paper strip around the quilling tool.

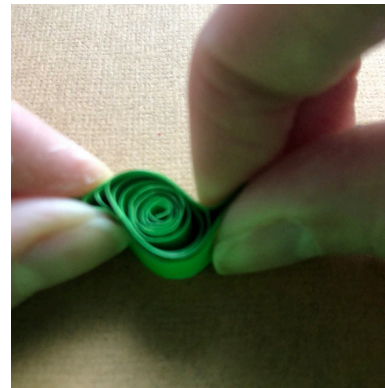

**2.**  
Remove the paper from the quilling tool. Set it on the table and allow it to grow to the desired size.

**3.**  
Put a dot of glue on the outer end of the paper and glue it down.

**4.**  
Grab both sides of the spiral.

**5.**  
Manipulate the spiral into the desired shape and pinch.

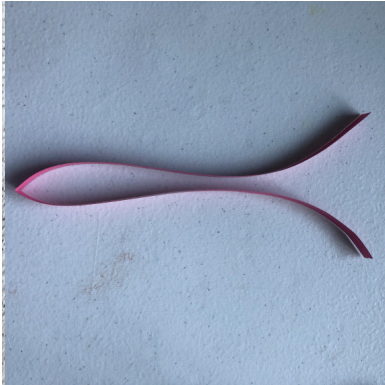

**6.**  
Your finished leaf shape should look something like this.

# HEART SHAPE

---

**1.**  
Fold your paper strip in half.

**2.**  
Put one side of the paper strip into the quilling tool's notch and tightly wrap inside until you reach the center fold.

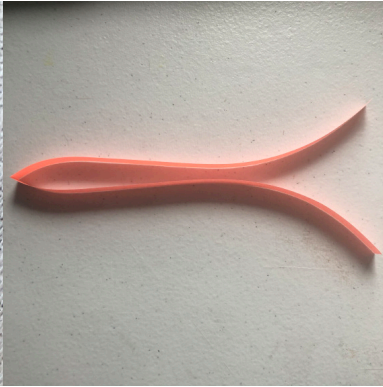

**3.**  
Put the other end of the paper strip into the quilling tool's notch. Tightly wrap along the inside until you reach the center fold.

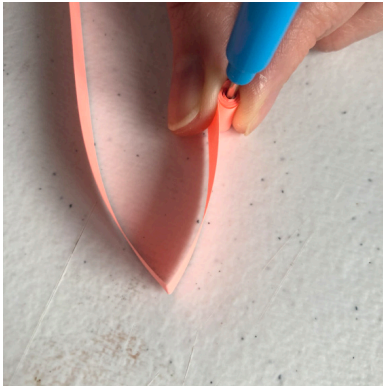

**4.**  
Your finished heart should look something like this.

# V SHAPE

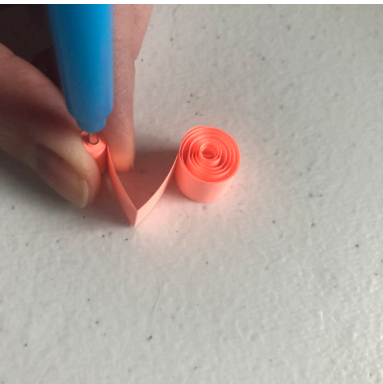

---

**1.**  
Fold your paper strip in half.

**2.**  
Put one side of the paper strip into the quilling tool's notch and tightly wrap outwards towards the center fold.

**3.**  
Put the other end of the paper strip into the quilling tool's notch. Tightly wrap outwards towards the center fold.

**4.**  
Your finished V should look something like this.

# SCROLL SHAPE

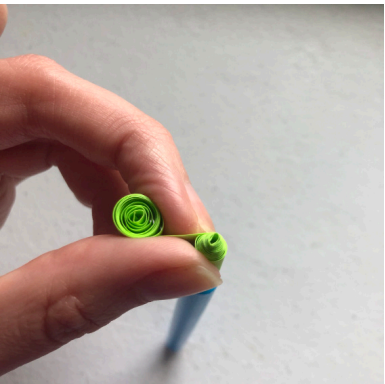

---

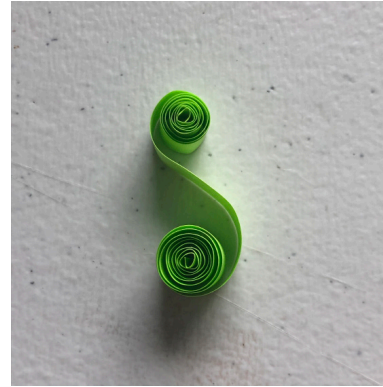

**1.**  
Put one side of the paper strip into the quilling tool's notch and tightly wrap inside until you reach the center of the strip.

**2.**  
You should have one side rolled into a coil and one side left straight.

**3.**  
Put the other end of the paper strip into the quilling tool's notch. Tightly wrap in the opposite direction to create an "S" shape. Wrap towards the center.

**4.**  
Your finished scroll should look something like this.

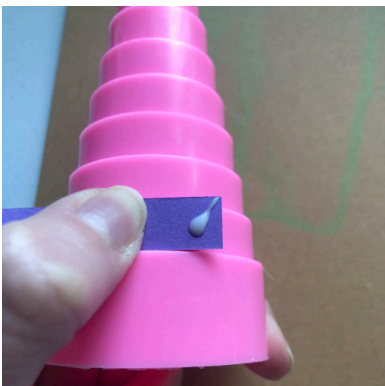

# BOARDER SHAPES

**1.**  
Pick the boarder buddy shape or choose an object that is the shape you wish to create.

**2.**  
Hold the end of your paper strip beside the object. Practice wrapping it around the object.

**3.**  
Put a dot of glue on the end of the strip.

**4.**  
Wrap your paper tightly around the object. Put a dot of glue on the far end of the strip.

**5.**  
Glue the end of your paper strip down to the boarder of paper. Allow it to dry completely.

**6.**  
Once dry, gently remove your boarder shape from the object. You may need to pinch corners slightly to shape them.
