How to give children  
a voice in the most important  
debate  
of our time?

**NRK** super

**NRK Super's vision:**

**We shall create  
a world where  
children grow  
and are important.**

# MISSION

**We shall show that Norwegian children can make a difference and have a voice in the world by letting four young teenagers go on a climate expedition to the North Pole in Nansen's footsteps. The journey will be a learning experience where they will ask the most important questions on behalf of their generation.**

## **The most important expedition in history**

Four children seek the answer to three crucial questions – for the sake of their generation

**What happens when the ice melts? How will it affect them?**

**What can they do about it?**

If you are seen,  
you are important.

If you are heard,  
you have a voice.
