TITLE: Arthur Watrous Collection

COLLECTION NUMBER: B1998.027

OVERVIEW OF THE COLLECTION

Dates: circa 1930-1940

Extent: 5 boxes; 2.2 linear feet

Language and Scripts: The collection is in English.

Name of creator(s): Arthur Watrous, H.W. Steward

Administrative/Biographical History:
Everett and Myrtle Watrous worked as Bureau of Indian Affairs teachers in Point Hope starting in the spring of 1930. Son Arthur was born October 5, 1930, in Kotzebue. Everett and Myrtle worked for the BIA until 1946, and were stationed in Akutan, Karluk, and Wrangell. During their stay in Alaska, Everett took many photographs and then used them to illustrate talks back East.

Scope and Content Description:
The collection consists of 77 glass lantern slides (all but two hand-tinted), 684 nitrate negatives, and 184 black-and-white prints (one real photo postcard) depicting Point Hope, King Island, Akutan, Little Diomede, and other villages in western Alaska, circa 1930-1940. Included are many images of subsistence hunting, traditional boats, dwellings, and social activities, including a funeral at Point Hope. There are also many images documenting work at the Akutan whaling station, which operated until 1939. There are three images of the sinking of the freighter Anyox. Of interest in terms of photographic process, some original envelopes contain notes to assist in creating colored glass lantern slides from the original black-and-white negatives (2.118, 2.396, 2.413, 2.427, 2.474, 2.544, 2.660). Forty small note cards,
probably prompts for lectures, are housed with the photographic prints. For more information, see Detailed Description of Collection below.

CONDITIONS GOVERNING ACCESS AND USE

Restrictions on Access: The collection is open for research use.

Physical Access: Original items in fair to good condition. Access to original glass slides and nitrate negatives is limited. Digital scans can be viewed in the reading room.

Technical Access: No special equipment is needed to access the materials.

Conditions Governing Reproduction and Use:
The Anchorage Museum is the owner of the materials and makes available reproductions for research, publication, and other uses. Written permission must be obtained from the Anchorage Museum before any reproduction use. The Anchorage Museum does not necessarily hold copyright to all of the materials in the collections. In some cases, permission for use may require seeking additional authorization from the copyright owners.

ADMINISTRATIVE INFORMATION

Acquisition and Appraisal Information

Processing Note
Nitrate negatives and glass slides scanned in 2012. Many empty negative envelopes were found in the boxes containing prints and negatives. These have been kept at the end of the collection in case the information on them relates to the images.

Separated Materials
Nitrate negatives removed to freezer. Glass plates shelved with other glass materials.
