Two hard bound presentation albums, with the above inscriptions, have been separated, sorted, indexed and stored in oversized boxes. There was no obvious arrangement of these images other than generally by size within the year of publication.

Primary sort is by location and is coded : Ei = Eielson Air Force Base; E = Elmendorf Air Force Base; G = Fort Greely; R = Fort Richardson (including Site Summit); and W = Fort Wainwright. To help maintain order, each photo bears a letter for location followed by date (62 or 65), then by the individual number in the series. The mention of "no hats" in captions was added after noting that these images tend to be more casual.

There appears to be a method to the National Photo and News Service (EO Goldbeck) number. The date of the photograph appears to be embedded in the middle: 2831622 was taken 8-31-62. The beginning and ending 2s are undefined at this date.

The index includes personal names listed in Goldbeck captions, as well as a few subjects such as fire departments, airplanes, bands and hospitals. These terms are interfiled for the entire collection.
