Donated. Carr, James, 5532 Huntley Ave, Garden Grove, CA 92645

64 Photos. 5 Copies. 1 Map.

## **Castner B91.30**

### **Scope and Contents**

General Joseph C. Castner was born in New Brunswick, NJ on November 18, 1869. He attended Rutgers College graduating with a bachelor's degree in science in 1891 and later a master's degree in science in 1916. In 1891, after having been named "best soldier of the cadet body" he was commissioned a second lieutenant of the Army.

In 1898, while serving in Alaska he took part in the Glenn Expedition. The expedition, headed by Captain Edwin F. Glenn was to establish a camp on Prince William Sound and then explore from there possible routes that would allow easy access from tidewater to crossings of the Tanana River in the direction of the Yukon River. Castner, as a 2<sup>nd</sup> Lieutenant sought out a route out of Portage Bay and over the Portage Glacier, as well as a route from upper Cook Inlet north to the Tanana River.

For his "gallantry" in action while serving in the Philippines from 1900 to 1901, he received two Silver Stars. Later, during World War I he would be honored with the Distinguished Service Medal and a third Silver Star while serving as the commanding Colonel of the 38<sup>th</sup> Infantry in France. From 1908 to 1912, Castner was appointed the Constructing Quartermaster in the U.S. Army serving in Hawaii and soon after in 1915 he became the Adjutant General for the District of Columbia. In 1921, Castner became a Brigadier General. Castner commanded forces in China during the years of 1926 to 1929 and in 1933 Castner retired as a commander of the Third Division in the Western States. He died on July 8, 1946.

The Castner Collection contains photographs taken by William C. Mendenhall and A. H. Brooks. The photos in this collection are primarily of the 1898 Glenn Expedition with some photos of Alaska taken in 1903. The photos of the Glenn Expedition include several photos along the Tanana River, and various army camps and town views. The map in the collection is a hand drawn map illustrating a route from Fort Hamlin along the Yukon River traveling from east to west to the Peavey trade post where the North and South forks of the Koyukuk River meet. Please see collection list for specific item descriptions.

The collection is arranged in number order and divided into four photo folders B91.30.1-15, B91.30.16-30, B91.30.31-50, B91.30.51-64, and a map folder B91.30.65.
