Liebel Collection B93.19

Scope and Contents

Vera Liebel came to Alaska in the 1930's. She worked as a nurse and a pilot. While in Alaska she learned to fly and later in life would become a Commercial Bush Pilot. She was stationed at Mt. Village in 1939. She stopped nursing in the early 1950's and died at the age of 87 in Mt. View. She is mentioned in *We Live in Alaska*.

While a chief nurse at Mountain Village Hospital she wrote a report on the conditions of the hospital for the U.S. Office of Indian Affairs. This report is in the collection. Also in the collection are 34 photographs of Old Bethel Hospital (originally thought to be the Mountain Village Hospital), including images of rooms, staff, and patients, as well as images of Vera's family and aerial views of Juneau. Please see item list for more specific information on individual photographs. The collection is organized into two folders, Papers and Photographs. The photographs are in number order. Housed with the Collections department of the Museum, are two medical bags along with medical supplies of Vera's.
