TITLE: Walter Deane Slides

COLLECTION NUMBER: B2014.002

OVERVIEW OF THE COLLECTION

Extent: 1.75 linear feet

Language and Scripts: The collection is in English.

Name of creator(s): Walter Deane, Douglas Deane, Emil Muench, Reggie Hibshman, Vacation Films, Plastichrome, Pana-Vue

Administrative/Biographical History:
Walter Deane was born in 1919 in New York City. In 1941, he enlisted in the Army, and was transferred to Elmendorf Air Force Base in 1959. Deane held a bachelor’s degree in elementary education and a master’s degree in social sciences. After his retirement from the Army, he was a guidance counselor and teacher in the Anchorage School District, and taught classes at Anchorage Community College and the University of Alaska.

Scope and Content Description:
The collection consists of 1541 color 35mm slides, the bulk spanning the approximate dates of 1964 (post earthquake) through most of 1977. Large collections of pictures, particularly the earlier ones, consist of numerous road and ferry trips through Canada and Alaska. Many later pictures into the 1970s are focused on school classrooms, mostly at Romig Junior High School.
The object of the road trip pictures is often directed at old structures/buildings (both frame and log construction), as well as interpretive road signs and memorials along the Alaska Highway and within Alaska. Mountain (and particularly winter) scenery pictures taken from the roadside are also prevalent. The collection also includes commercial presentation slides consisting of generic ‘tourist’ scenes of Alaska (Alaska Natives, communities, mountain scenery, and wildlife).

Arrangement: Personal photographs arranged chronologically. Commercial slides filed after personal photographs and arranged by publisher and photo number.

CONDITIONS GOVERNING ACCESS AND USE

Restrictions on Access: The collection is open for research use.

Physical Access: Original items in good condition.

Technical Access: No special equipment is needed to access the materials. A light box might be used to view transparencies.

Conditions Governing Reproduction and Use:
The Anchorage Museum is the owner of the materials and makes available reproductions for research, publication, and other uses. Written permission must be obtained from the Anchorage Museum before any reproduction use. The Anchorage Museum does not necessarily hold copyright to all of the materials in the collections. In some cases, permission for use may require seeking additional authorization from the copyright owners.

ADMINISTRATIVE INFORMATION

Acquisition and Appraisal Information
Donated to the Museum by Tim Troll for the estate of Walter and Alma Deane in 2000.

Processing Note
The collection was processed by volunteer Tony Sisto in 2014. Slides that were exact or near duplicates, of very poor quality, not related to Alaska or connected interests, or otherwise would not benefit from being kept and could be excised without impacting the integrity of the collection were deaccessioned.

Note
All slides are organized with cardboard dividers specifically by the date stamp on the slide mount indicating development date, not exposure date (i.e., “Jun 66R4”). Many of the road trip slides taken during the 1960s have numbers penciled on the mount by an unknown
These penciled numbers appear to identify a group of slides for a particular trip or trip segment, but the relationship between the different numbers is less apparent (for example, if they indicate an order in which to show the continuity of slides for a longer trip, this does not always seem to work under close examination).
