TITLE: Becky Gay Collection

COLLECTION NUMBER: B2009.037

OVERVIEW OF THE COLLECTION

Dates: circa 1939-1944

Extent: 53 items

Language and Scripts: The collection is in English.

Name of creator(s): unknown

Administrative/Biographical History:

This collection may contain unrelated groups of photos. It was previously physically processed by another individual and some donor details may have been lost since this time. There is a note within the accession file for a 'Becky Gay' and it is presumed that at least a portion of the negatives were donated by her. There is no information about her relation to the photographs or those pictured within, except that she is not the photographer or pictured subject in any way.¹

The negatives of the Japanese on Attu (.1a-.3b) are noted on the reverse side of an envelope sent by Sgt. Lester H. Best, and it is presumed that they were previously stored in this envelope. According to his U.S. Army Enlistment Record, Sgt. Best was born in 1917 and enlisted in the Army Air Corps on 3 November 1945 in Pennsylvania. It is unclear how he is associated with the Aleutian Campaign, World War II, or the photographs included herein.

Col. Otis E. Hays Jr. is among those listed in the donor file; however it is unclear as to which

¹ Becky Gay is noted as being in her 60s at the time of processing.

pictures are related to him, if any. Hays did serve in the Alaska Defense Command during WWII so it is possible that he created or collected a portion of these images,² though he was also a WWII historian and author so it is possible he is related in that manner to this collection.

There is another envelope that is noted as having contained one negative of a man in a fleece flight jacket (.11) and is labeled as 'Negative, Jared (or Janet) Hefley (sp)'. It is possible that this is the pilot pictured, the photographer of the portrait, or the collector/donor of the image. There are no details known about J. Hefley or the man pictured.

Scope and Content Description:

This is a collection of 64 black and white negatives and one print photograph. Film formats are varied and included nitrate and acetate film stocks. Subjects pictured are diverse but photographs appear to have all been taken in the 1940s, with one dated as being circa 1939. Topics include: military pilots; Japanese on Attu (pre-Battle of Attu); and military men with civilian women (recreational life). Many of the images are of unidentified locations, but some show details similar to Adak, Attu, or other Aleutian Islands. The recreational images may be of Fort Richardson or Anchorage or another base near a town.

Arrangement:

The negatives have been arranged according to film type and further by subject. This collection was partially processed in the past and any original order has been lost.

CONDITIONS GOVERNING ACCESS AND USE

Restrictions on Access: The collection is open for research use.

Physical Access: Original items in good condition. Access to original negatives limited.

Technical Access: No special equipment is needed to access the materials. A light box may be used to view transparencies. Computer access required to view digital scans.

Conditions Governing Reproduction and Use:

The Anchorage Museum is the owner of the materials and makes available reproductions for research, publication, and other uses. Written permission must be obtained from the Anchorage Museum before any reproduction use. The Anchorage Museum does not necessarily hold copyright to all of the materials in the collections. In some cases, permission for use may require seeking additional authorization from the copyright owners.

ADMINISTRATIVE INFORMATION

Acquisition and Appraisal Information:

Collection accessioned in September of 2009. Accession notes indicate that the materials may have been donated by Becky Gay.

Processing Note:

Collection was physically processed prior to 2015 and most original envelopes appear to have been discarded at that time. Six negatives regarding Japanese soldiers on Attu came out of an envelope from Sgt. Lester H. Best. One negative was discarded for duplicate image and deterioration. Any captions were provided at time of previous processing and are presumed to have been written on the negative's original containers. Negatives digitized in 2015 and removed to freezer.
